The ball always winds up in the bunker when you're trying not to hit it there. In fact, I'd bet you'd have more luck avoiding the sand trap if you actually aimed for it. My favorite iron...is the five iron. Something's just not right with my putter these days...

Actually, *I've never golfed in my life!!!* I want to try golfing one day when I'm all grown up. Here comes volume 65!! Nice shot!!

-Eiichiro Oda, 2011

Eiichiro Oda began his manga career at the age of 17, when his one-shot cowboy manga **Wanted!** won second place in the coveted Tezuka manga awards. Oda went on to work as an assistant to some of the biggest manga artists in the industry, including Nobuhiro Watsuki, before winning the Hop Step Award for new artists. His pirate adventure **One Piece**, which debuted in **Weekly Shonen Jump** in 1997, quickly became one of the most popular manga in Japan.

Q: Umm, hey Odacchi. I noticed that your readers always say "Start the SBS" before you have a chance to. I love that about you!! So, here goes.

"Start the SB..."

--Noriaki S.

A: Huh? You mean I can really say it? You left the final letter just for me? Oh my gosh... This means so much to me. Ready? Here I go! "Z." Oops, I said the wrong letter!!! ʘ_ʘ

Q: Panties panties panties panties panties panties panties panties panties panties panties panties panties panties panties panties panties

--Count the panties

A: Stop, stop. Stop...stop stop stop stop STOP!!! ʘ_ʘ
Huff, huff... It's the curse of the panties again. Three postcards full. Covered with 3,787 panties!! (we counted) You're not getting in the SBS next time! There wasn't even a question! And some of them were weird words like "penties" and "pontees"!!

Q: I'm in fourth grade and I love Fisher Tiger. I can't wait for the newest chapter every week. Here's my question, Mr. Oda. What's in Camie's bag?

--Acerola #1

A: Hmm. Dreams, I bet. Also soy sauce and butter. (for eating clams with)

Q: Back in Volume 10, Hachi claimed that he was the "greatest sword user, aside from one man back on Fish-Man Island." Would that *one man* happen to be Hyouzou? If I'm wrong, please kill me.

--Euroclydon

A: Actually, you're right! Was that question worth giving up your life over?! They went to the same dojo for swordsmen, and Hyouzou would Beat him every time.

DECKEN?

Q: Ahh, yes, I see!! (Boom.)

I wasn't actually asking, though!! Ha ha!!

--Setobyun

A: And I didn't even say anything. Ha ha ha! (I pulled a prank on you)

Q: I have a serious question! You know how the Straw Hat Pirates each have their own Jolly Roger?? Have you come up with new designs for them, two years later?!

--M-Hyu, age 22

A: As a matter of fact, I had these done fairly early on. The merchandising companies would come to me with new designs, asking if they could use them, and I would say, "No!!" and fix them up. So these are the official new logos. Hey, it's hard to do that merchandising stuff. So here they are.

Shueisha / Fuji TV /

Q: Lately in *One Piece*, it seems like Luffy runs across a whole parade of enemies with stronger and stronger powers. In most manga and anime, the hero has the best and most ultimate powers of all, so why did you choose something as weak-sounding as rubber for Luffy?

--Hang in There, Japan

A: Ha ha, good question. It is strange that he'd have that one, when there are so many cool powers out there. The answer is simple: I chose the goofiest power I could think of. I probably couldn't handle drawing a straightforward, cool, tough hero for this long. No matter how serious and dark the story gets, Luffy's still stretching and inflating and so on. He always gives me the chance to lighten the mood. That's the kind of manga I wanted to draw.

Q: Greetings! Here's my question! My sister asked me, "Is Ishily, the cute droopy-eyed freckled mermaid at the Mermaid Inlet, a parrotfish mermaid?" Can you answer that for her? She also said, "What are the fish models for the other mermaids?"

--V & UU

A: Yes, that's correct. Ishily the parrotfish, the striped girl who was among the mermaids Caribou kidnapped. As it happens, all those beautiful mermaids at the inlet are dancers at the Mermaid Café. I hear their dances are so gorgeous, they would probably kill Sanji. Here's an introduction to the Mermaid Café's top five dancers.

Ishily
(Parrotfish)

Kairen
(Sole)

Hiramela
(Flounder)

Seira
(Marine Angelfish)

Mello
(Garfish)

Q: Hello! Our whole family loves reading *One Piece*. I've noticed that in the story, you write the "Sun" in "Sun Pirates" in phonetic *kana* rather than Chinese *kanji*. Is there a reason for that? I've always found it curious.

--Makki

A: I see. This actually wasn't an intentional choice on my part; it's just something I always found myself doing. Let's say, for example, I'm writing dialogue for children, or when Luffy's being particularly stupid. In these cases I often use much fewer complex *kanji* and more simple phonetic spellings. That's because those characters may not really grasp the meaning of what they're saying, and the precise definitions of the *kanji* would probably be too complicated for them. Now consider this: the Fish-Men are speaking of a "sun" that exists far above the miles of water over their heads. It's something they rarely ever see, something beyond their knowledge. That's why I choose to write it with simple *kana* rather than more precise *kanji*. It just makes more sense to me.

(Sorako ☆ Sho, Tokyo)

Q: Odacchi!! Canned mackerel is good, huh?!

--Mack Mackerel

A: Yeah, it is! My favorite is canned onion mackerel. It's too good!!

Q: In the Volume 64 scene where the Fish-Man Island kids tell Luffy to fight for them, there's a guy who says "I agree with them." I noticed that his shirt says "Sorega iiyo," which is the same line in Japanese, but written in the Western alphabet! What does it mean?!

--Trafalgar Law♡

Q: What species is the girl in Chapter 633 wearing the shirt that says "Tega2tsui"? (Two pairs of hands)

--Takaaki T.

A: Here are two questions. As for the girl, I didn't think of a fish species for her, but I'm betting she'd be some kind of ancient fish. The Fish-Men based on ancient species tend to have many fins. As for the shirts in general, you may notice that I became obsessed with "explanation shirts" in this arc, where I drew characters wearing clothes that repeated one of the original Japanese lines of dialogue from that panel. Look carefully, and you'll see them everywhere. Even in this book!

Q: I noticed something wrong with your story, Mr. Oda. When the king and princes were tied up, they seemed to be in pain, right? Isn't that weird? I would have thought their faces would be full of pleasure, like mine is when I get tied up... You're the same way, right?

--Chagero Kiyomizu

A: You towering fool!! What are you saying?! Children read this manga!! Aha! You're Chagero Kiyomizu, the pervert!! I've got your address this time! Hey! Officer! See that guy there? The one who's all tied up and enjoying it! Arrest him at once! ...Huh? What do I have to do with this?! What?! Why are you arresting me too, just because I'm not wearing any pants or underwear?! This is an outrage! Click clack! Hey, don't handcuff me! I have a deadline to meet, officer! Officer?! Hey...

Q: Out of all the characters in *One Piece*, who's your rival?
It's Franky, right? I just thought I'd ask.

--Toku

A: Who says?!³ Would you not put words into my mouth? You're acting like I'm some kind of pervert. Let's see, if anyone's going to be my rival, it'd be...Nami. I had my measurements taken for a suit, and my chest was 39 inches. Huh? My waist? Somewhere between 20 and 39 inches. Basically, I'm saying that I have centerfold proportions. Next letter!

Q: Can Princess Shirahoshi's birthday be April 4th?
Can it? Please! (cry)

--Dokkoi

A: Sure.

Q: So Luffy's Supreme King Haki can knock out fifty thousand. How many can Shanks knock out with his?

--Captain Nobuo

A: If they were in the exact same situation as Luffy's, Shanks and Rayleigh could PROBABLY manage up to a hundred thousand. You really can't compare "how many" in different situations. Defeating someone with haki is a phenomenon that occurs only when the user is overwhelmingly more powerful than the opponent. Basically, it's showing how many of Luffy's opponents weren't even worth fighting. If Luffy were facing a hundred thousand pirates of a certain strength, he might not be able to knock out a single one with haki. By the way, by training and practicing one's Haki of the Supreme King, you can pick a few out of a crowd and spare them from its effects.

A chaotic battle scene. In the foreground, a warrior in a red and black patterned tunic is being thrown or falling. To his right, a blue-skinned warrior with a large, open mouth in a shout is being pushed back. Further right, a green-skinned warrior with a wide, toothy grin is also shouting. In the background, several other figures are visible, some holding weapons. A large, stylized red sound effect, resembling the Japanese characters 'ウオオオオ' (Uoooo), is superimposed over the center of the scene. The background shows a dark, possibly stone or wooden structure with arched openings. The overall tone is one of intense action and emotional fervor.

# K15Rのコーナー!!

O : H・D・K!!(はいどうもこんにちわ!!)

K15Rのコーナーです! 意味は、(K)今年(15)15周年(R)らしいよ。

そんなわけで、連載開始から今年で15年なんだって、この漫画。

僕は15年も漫画家やってんのね。…ふへん。…はい。それを記念して、

今年に向けて色んな企画が水面下で動いてたんですよ、実は!!

★まずは造形師、朝隈俊男さんとNE PIECEとの楽しい共同企画!!

動物達が麦わらの一味の衣装を奪って逃げた!!というもの。8年くらい前

かなー、僕が朝隈さんの動物フィギュアの展示会にばったり出くわし、

それはもう一目ボレでした。ずっとファンなわけなんです。興味ある人は、

朝隈さんのHPをのぞいてみて下さい。ほんわかして笑っちゃいますよ。

そして、2、3年前に僕から朝隈さんとお仕事できないかなーと言ってみたら、

先方快諾していただきまして、今年ついに朝隈さんの造るNE PIECE

ワールドが解禁となるのです!! いやーもう早く飾りたい、それ!!

★続きまして、PS3のゲーム「海賊無双」! ゲーム好きなら誰でも知ってる

「無双シリーズ」ね。そのチームがNE PIECEでゲーム作りたいって

言ってくれたよ。どんなもんかいなと思ってたら、あがってきた

デモムービー。度肝抜かれました正直。ルフィそこにいるじゃん!

と思った程のリアルムービー! 製作者の魂を感じるよ。

★そして、オシャレな街、六本木で開かれるのは「NE PIECE展」!!

原画もたくさん展示してある体感型の原画展とでもいうのかな。コレに

関しては、僕も企画段階からつきあってチェック入れてます。僕の前稿の絵が

ですね、動くんだよね。コレ何て説明すればいいのかわからない最新技術で、

皆さんを漫画の世界にぐいぐい引き込んでっちゃうんですよ。音楽は、あの

capsuleの中田ヤスタカさんが担当してくれ、造形物も、僕の描き下ろしも

あります。涙もろい方は、ハンカチを忘れずに。結構ヤバイッすよ、この原画展。
